

Versatile, reliable, and easy to handle

Yamaha's inflatable tenders epitomise a perfect blend of advanced technology and user-friendly design. The lightweight construction makes transportation and storage hassle-free, while their sturdy build guarantees reliability and durability. Ideal for solo outings or as auxiliary boats for larger vessels, Yamaha's tenders ensure a dependable and enjoyable experience every time.

No matter your level of experience, Yamaha's inflatable tenders provide a dependable solution for your boating needs. They combine a lightweight build with exceptional stability and maneuverability, making them ideal for fishing, family outings, or relaxed days on the water. True to Yamaha's heritage, these boats deliver outstanding quality and performance.

- Lightweight and portable
- Easy inflation and deflation
- Foldable slatted floor
- Robuuste constructie
- Enhanced rubbing strakes
- Improved drain plug
- Intrekbare peddels

YAM 240T

The YAM 200T and YAM 240T stand out as versatile models offering ease of use and durability. With key features such as air decks and inflatable keels, they ensure smooth and steady rides, even in less favourable conditions. Crafted with Yamaha's renowned expertise, these tenders bring together practicality, innovation, and a focus on delivering a comfortable and enjoyable boating experience.

Versatile, reliable, and easy to handle

Whether you're an experienced boater or a beginner, Yamaha's inflatable tenders are designed to meet every need on the water. Their lightweight construction offers excellent maneuverability and stability, making them perfect for fishing trips, leisurely cruising, or family adventures. As always, Yamaha's quality engineering guarantees a product you can trust.

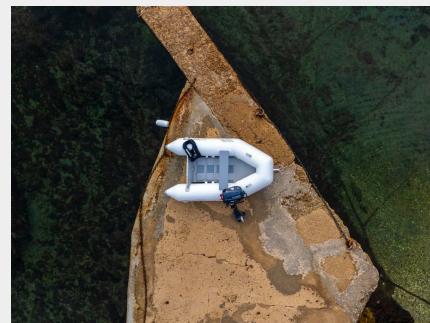

The YAM 200T and YAM 240T models are both versatile and practical. These tenders are built to be easy to handle, providing robust performance with features like inflatable keels and air decks that ensure a smooth, stable ride in a variety of conditions.

Gesteund door Yamaha's toewijding aan innovatie zijn deze boten niet alleen betrouwbaar, maar ook doordacht gemaakt om comfort en efficiëntie op het water te leveren.

Lightweight and portable

Compact designs with a foldable slatted floor ensure easy transportation and storage without compromising on durability.

Klaar voor de start

Easy inflation and deflation using the powerful air pump supplied means you can be on or off the water in minutes.

Robuuste constructie

The transom is constructed with high-quality PVC materials to ensure durability and resistance to wear and tear. It is also designed to be the perfect fit for a Yamaha outboard, including our Electric Drive motors.

Superieure wendbaarheid

The lightweight hulls and intuitive designs deliver unmatched control and ease of navigation.

Compacte opslag

Yamaha's tenders deflate quickly and pack neatly in a dedicated stowage bag, making them convenient to store in tight spaces.

Enhanced rubbing strakes

Enhanced durability and protection against wear, ensuring a longer lifespan for your tender, even in rugged conditions.
