CHARTS, MAPS AND APPS

THE BEST OF GARMIN WITH THE BEST OF NAVIONICS®

Whether you're adventuring on the high seas, cruising an intercoastal waterway, fishing on your new favorite freshwater lake or piloting a commercial workboat, your chartplotter deserves the best, most up-to-date marine charts and navigation data available. That's the advantage you get with the detail-rich content in our full line of marine mapping solutions. With selectable chart layers, overlays and more, our products help mariners all over the world guide their boats in and out of port with confidence. Map coverage areas are aligned across standard and premium options for Garmin and Navionics-branded products — with combined coastal and lake content, making it simple to access the map areas you want. See all the best places that water can take you. And plot your course with the world's No. 1 choice in marine mapping[1].

GARMIN NAVIONICS+™ CHARTS

FEATURING NAVIONICS DATA
Worldwide coverage available

INTEGRATED CHARTS AND MAPS FOR GARMIN CHARTPLOTTERS

Navigate with greater peace of mind and increased awareness on the water. Garmin Navionics+ marine charts — with integrated Garmin and Navionics content — brings a vibrant color palette and popular Navionics-style chart formatting to your chartplotter[1]. For offshore or inland waters, this all-in-one solution offers detail-rich mapping of coastal features, lakes, rivers and more — with shaded depth contours and access to daily updates via the ActiveCaptain® app. Advanced Auto Guidance+ technology[2] offers a suggested dock-to-dock path to your destination. And multiple shading options aid in shallow water navigation and make it easy to select depth ranges for the best fishing spots. Downloadable NOAA raster imagery[3] is also available for those who want the familiar look of paper charts. And with select GPSMAP® or ECHOMAP™ series chartplotters, Garmin Navionics+ mapping is available built-in.

SAVE WITH MARINE CHART SUBSCRIPTIONS

An included one-year subscription with your chart purchase provides access to daily updates, advanced features and so much more. At the end of your yearly subscription period, you can renew for additional one-year periods — at a price that's typically 50% less than the cost of a new GPS card. Use the ActiveCaptain® app to activate your subscription and download updated charts.

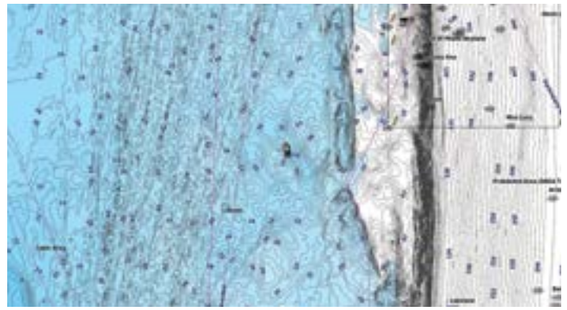
[1]Garmin Navionics+ and Garmin Navionics Vision+ are designed for use on compatible Garmin devices only. Third-party brands may utilize Navionics+ or Navionics Platinum+ products.
[2]Auto Guidance+ is for planning purposes only and does not replace safe navigation operations
[3]Raster charts can only be displayed on GPSMAP® series chartplotters and/or the ActiveCaptain® app

ADVANCED CHART DETAIL

Integrated Garmin and Navionics content, with an updated color palette and Navionics style appearance, offers exceptional coverage, clarity and detail on your chartplotter.

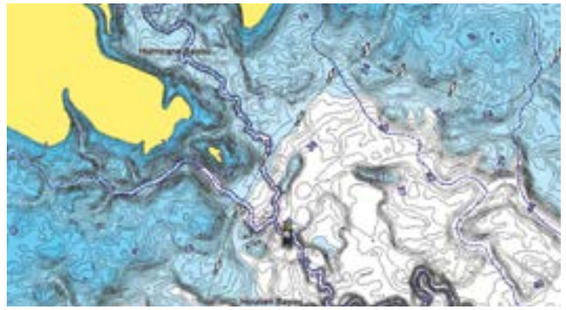
AUTO GUIDANCE+

For smoother, more detailed routes, built-in Auto Guidance+ technology[1] uses your desired depth and overhead clearance, along with chart data and frequently traveled routes, to quickly calculate a suggested path to follow from dock to dock even faster.



DETAILED CONTOURS

Up to 1' contours provide a more accurate depiction of bottom structure so you can catch more fish and navigate with confidence.



SHALLOW WATER SHADING

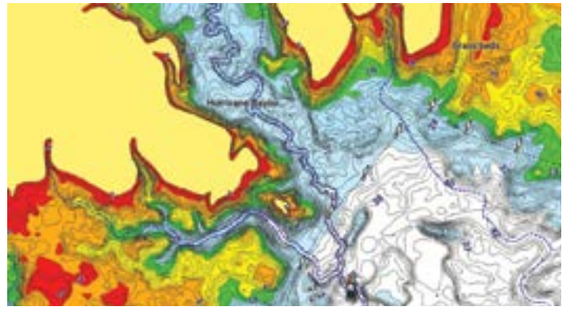
Shallow water shading for a user-defined depth gives a clearer picture of shallow waters to avoid when navigating.

RASTER CHARTS

Download NOAA raster charts via the ActiveCaptain® app to your compatible smartphone and then sync to your chartplotter.

NIGHT MODE

A night mode display option optimizes viewing in low-light conditions and helps preserve your night vision.



DEPTH RANGE SHADING

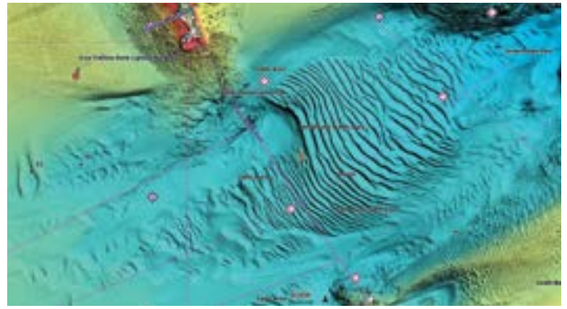
Select high-resolution depth range shading for up to 10 depth ranges to view your target depth at a glance.

GARMIN NAVIONICS VISION+™ CHARTS

FEATURING NAVIONICS DATA
Worldwide coverage available

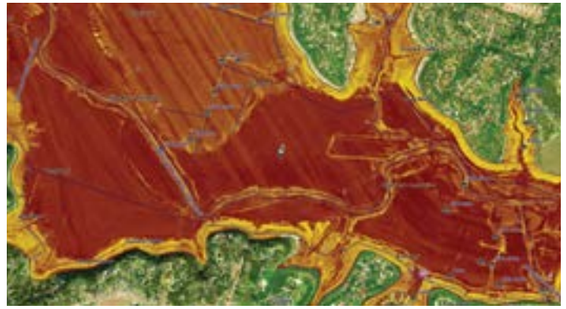
PREMIUM CHARTS AND MAPS FOR GARMIN CHARTPLOTTERS

Our premium mapping solution for Garmin devices adds even more graphical content and visual dimension to the standard Garmin Navionics+ feature set. Covering offshore and inland waters, this all-in-one mapping package offers access to daily updates and lets you navigate seamlessly with such additional on-screen aids as high-resolution relief shading, 3D perspective views, and overhead visual reference from aerial photography and satellite imagery. Enhancing your situational awareness, these extra features help you navigate unfamiliar waters, marinas, shorelines, ports and more with confidence.



HIGH-RESOLUTION RELIEF SHADING

Highly detailed shading combines color and shadow to provide an easy-to-interpret, clearer view of bottom structure than contour lines alone.



SONAR IMAGERY

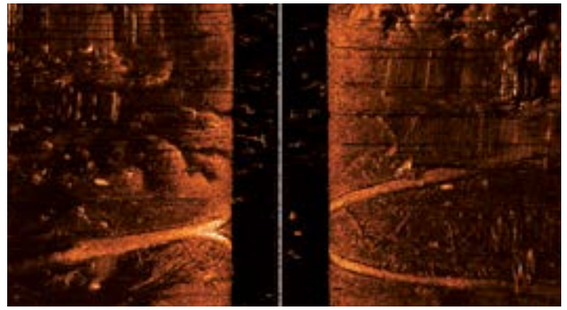
The sonar imagery feature reveals bottom hardness clearly and in contrasting color, highlighting both subtle and dramatic transition areas on select lakes. Simply download this feature via the ActiveCaptain® app.

HIGH-RESOLUTION SATELLITE IMAGERY

Download high-resolution satellite imagery via the ActiveCaptain app and overlay navigational charts to get a realistic view of your surroundings — ideal for entering unfamiliar harbors or ports.

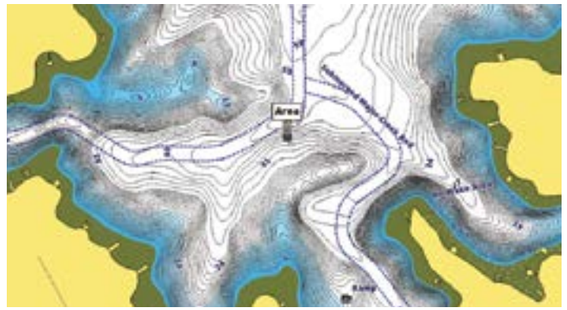
AERIAL PHOTOS

Aerial and surface photos of ports, bridges, docks, navigational landmarks and more provide a better sense of your surroundings above the waterline.



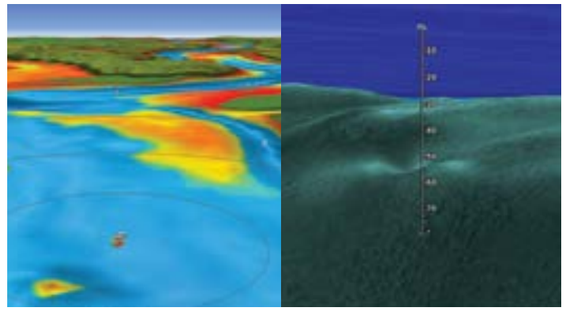
SIDE SCAN IMAGES

Check out submerged features such as fallen timber, fish attractors, wrecks, potential hazards and more.



DYNAMIC LAKE LEVEL

For inland lake navigation, you can adjust the map to the current water levels to see which areas are accessible or too shallow to explore.



3D VIEWS

MarinerEye and FishEye views provide 3D representations of the surrounding area above and below the waterline.

ACTIVECAPTAIN® APP

Give yourself the advantages of the ultimate connected boating experience by downloading the free all-in-one ActiveCaptain app. It features an updated look and feel, providing you with a powerful connection to your Garmin chartplotter, charts, maps and the community. A new night mode display option optimizes viewing in low-light conditions and helps preserve your night vision. Plus, wherever you are, you can have convenient access to your marine mapping, activate chart subscriptions, purchase and update maps and charts, plan your trips and access the Garmin Quickdraw™ Contours Community.

SPECIAL ACTIVECAPTAIN FEATURES

Use the built-in OneChart™ feature on the ActiveCaptain app to access and wirelessly update your charts from your compatible mobile phone directly to your chartplotter.

Receive smart notifications, such as calls and texts, on your chartplotter display when paired with the app.

Download software updates and notifications from the app directly to your Garmin devices.

Connect to fellow boaters with the ActiveCaptain community for up-to-date feedback on marinas and other points of interest.

Make, save and transfer routes and waypoints between the app and chartplotter — with zero button presses[1].

Easily upload and download the latest Garmin Quickdraw™ Contours content from the community — with zero button presses[1].

View and control your chartplotter from your compatible smartphone or tablet using the built-in Garmin Helm™ app.

Use with the OnDeck™ remote connectivity system (sold separately) to track, monitor and control connected switches on your boat from virtually anywhere.

[1]Zero button presses applies to GPSMAP® chartplotters

COMPARISON

MARINE CHART SOLUTIONS FOR GARMIN CHARTPLOTTERS[1]

With integrated Garmin and Navionics® content for offshore or inland waters, these all-in-one Garmin Navionics+™ and Garmin Navionics Vision+™ mapping products offer daily chart updates and improved routing capabilities in more places with Auto Guidance+ technology[1].

COMPATIBILITY

Featuring integrated coastal and inland content, the newest generation of Garmin Navionics+ and premium Garmin Navionics Vision+ mapping offers superior coverage, clarity and detail on your compatible Garmin chartplotter (www.garmin.com/marine/chartplotter-compatibility/). If your current chartplotter or marine handheld is not compatible with the Garmin Navionics+ format, you can still enjoy our previous generation of BlueChart® g3 coastal charts and LakeVü g3 inland maps — until you're ready for a chartplotter upgrade.

* Subscription feature
NOTE: When you purchase a new Garmin Navionics+ or Garmin Navionics Vision+ mapping product, a one-year subscription is included. The subscription includes access to daily chart updates and download of additional content such as raster charts and premium features where available. Charts and features downloaded during the subscription period remain on the card, but no additional content can be downloaded after the subscription expires. For preprogrammed charts bought in-store or online, the subscription needs to be activated. When the one-year subscription term expires, you can renew your subscription to continue accessing daily updates and premium features.

[1]Auto Guidance+ is for planning purposes only and does not replace safe navigation operations

NAVIONICS®+ CHARTS

NAVIONICS A GARMIN BRAND

INTEGRATED MAPPING FOR A WIDE RANGE OF CHARTPLOTTERS

It's all about knowing your way on the water — with marine charts and maps you can trust. That's why the boaters who trust and rely on the Navionics brand have made it the world's No. 1 marine mapping provider.* Seamlessly combining offshore and inland content, this all-in-one solution offers clear, reliable charts and maps for a wide range of third-party chartplotter brands. Navionics+ and Navionics Platinum+™ mapping products can now be ordered on Garmin.com, and they're available on microSD™ cards for easy installation on your compatible marine device.

Start out from day one with up-to-date charts. An included one-year subscription provides access to daily updates, advanced features and so much more. Plus, coverage areas are aligned across standard and premium products, with combined coastal and lake content, making it easier to choose the right mapping solution for your needs.

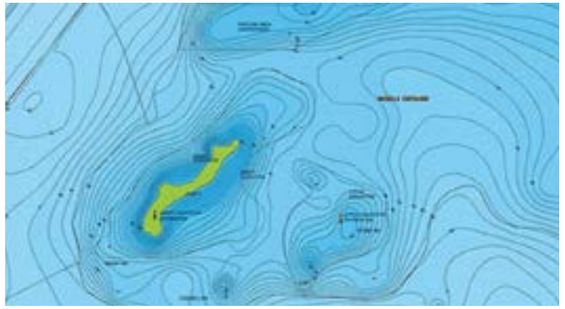
The same detailed marine and lake charts are also available with the Navionics Boating app on your Apple® or Android™ mobile device. Simply download the app and purchase your charts of choice to access top-of-the-line maps right from your compatible phone.

The Plotter Sync feature enables you to transfer routes and markers, update charts and more between your plotter card and the Navionics Boating app — wirelessly. You can even activate or renew your marine chart subscription and upload sonar logs.

*Based on 2023 sales.
NOTE: Navionics+ and Navionics Platinum+ cards are not compatible with Garmin chartplotters.
[1]Compatibility with Navionics advanced features varies depending on the chartplotter model
[2]Route guidance is for planning purposes only and does not replace safe navigation operations

NAUTICAL CHART

Essential navigational reference detail for cruising, sailing and fishing: port plans, safety depth contours, marine services and navigation aids.



SONARCHART™ HD BATHYMETRY

For improved fishing and navigation, SonarChart HD bathymetry maps display up to 1' contours for a more detailed depiction of bottom structure.

COMMUNITY EDITS

Download the Community Edits content layer to any Navionics card and view this valuable, local information, contributed by Navionics Boating app users, on your compatible chartplotter.

DOCK-TO-DOCK ROUTE GUIDANCE

Navionics advanced route guidance technology[1] uses your boat settings, along with chart data and frequently traveled routes, to calculate a suggested path to follow from dock to dock[2].

SONARCHART LIVE MAPPING FEATURE

Create your own maps on the fly. Watch new 1' HD bathymetry maps develop in real time as your boat moves along the water.

ADVANCED MAP OPTIONS

Change the way you view Navionics charts and focus on the details that matter most to you. Highlight shallow areas, adjust contour density or select a fishing range.

NAVIONICS PLATINUM+™ CHARTS

NAVIONICS A GARMIN BRAND

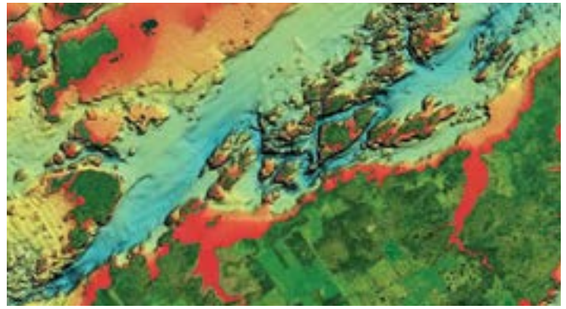
NAVIONICS PLATINUM+ OVERLAYS AND FEATURES

Designed with the most demanding boaters and serious anglers in mind, all the marine content of Navionics+ is enhanced with additional viewing options that take your boating experience to the next level. Easily download premium features to your Navionics Platinum+ card using the Navionics Chart Installer software.

NAVIONICS PLATINUM+

INTEGRATED COASTAL AND INLAND LAKES COVERAGE

A comprehensive, all-in-one map solution, Navionics Platinum+ products combine premium marine content on oceans, major rivers and seas, and with freshwater inland mapping for more than 45,000 lakes worldwide.

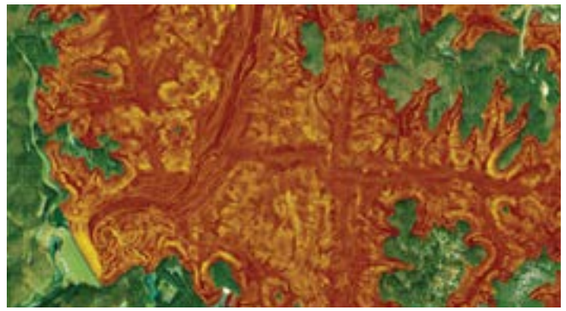


HIGH-RESOLUTION RELIEF SHADING

Download Navionics relief shading using the Navionics Chart Installer software and bring bottom detail to life, from shallow flats to deep offshore canyons. See it all in a vivid, colorful representation that helps boaters gain a better understanding of bottom topography.

HIGH-RESOLUTION SATELLITE IMAGERY

High-resolution satellite imagery gives you a realistic view of your surroundings — ideal for entering unfamiliar harbors or ports.

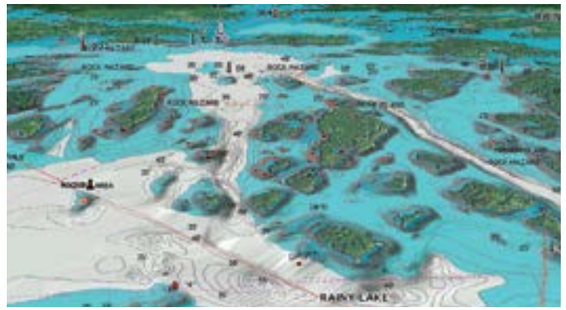


SONAR IMAGERY

To help find the best fishing spots, download sonar imagery using the Navionics Chart Installer software. These maps are generated from proprietary multibeam surveys and reveal bottom hardness and structural characteristics in contrasting color detail.

AERIAL PHOTOS

Aerial and surface photos of ports, marinas, bridges, docks, boat ramps, dams and navigational landmarks offers superior situational awareness.



3D VIEW

Unique 3D views provide additional perspective, both above and below the water.

NAVIONICS® BOATING APP

NAVIONICS A GARMIN BRAND

For cruising, fishing, sailing, diving and all your other activities on the water, the Navionics Boating app brings detailed offshore marine and inland lake charts to your compatible mobile device so they're on hand wherever you go. As a companion to the chartplotter or on its own, the app delivers detailed chart content and useful functionality — including night mode display — in a convenient and easy-to-use format.

In addition to all the great chart content, your one-year renewable subscription lets you access daily updates and powerful advanced features before, during and after your trip.

SPECIAL NAVIONICS BOATING APP FEATURES

Relief shading overlay uses color and shadow to provide boat owners with a better understanding of bottom topography for improved fishing and diving.

Auto Guidance+™ technology helps you start your trip with a suggested route from point A to B, based on chart data and navigation aids[1].

A night mode display option optimizes viewing in low-light conditions and helps preserve your night vision.

The Plotter Sync feature allows compatible chartplotter owners to transfer routes and markers, update chart layers and more — to and from the Navionics Boating app[2].

The Connections feature keeps you in touch with your friends and fellow boaters. Share your live location and tracks, routes and markers.

Local edits from Boating app users and the ActiveCaptain® Community are integrated within the app.

SonarChart™ Live mapping feature lets you create your own 1' contour HD bathymetry maps in real time while navigating.

Access real-time weather data, daily and hourly forecasts, as well as wind, weather buoys, tides and currents overlaid on your map.

The Boating app is available as a separate purchase for Apple® and Android™ devices and offers a free trial before subscribing.

[1]Auto Guidance+ is for planning purposes only and does not replace safe navigation operations
[2]Requires an active subscription with an overlapping coverage area on the Navionics Boating app

COMPARISON

MARINE CHART SOLUTIONS FOR NAVIONICS-COMPATIBLE THIRD-PARTY CHARTPLOTTERS[1]

Featuring integrated offshore and inland mapping content, these all-in-one Navionics®+ and Navionics Platinum+™ products offer daily chart updates and many useful features.

COMPATIBILITY

The all-in-one Navionics+ and Navionics Platinum+ mapping products are available on microSD™ cards for easy installation on your compatible marine device[1]. These solutions offer detail-rich integrated mapping, 1' HD contours, advanced features such as dock-to-dock route guidance technology[2] and access to daily updates via the Navionics Chart Installer software.
